

BioStar

Compostable Can Liners

“BioStar liners are completely compostable and meet ASTM D6400 specifications for compostable plastics”

Even if the contents of your trash bag are completely compostable, the entire package may not be. By using BioStar bags you can do even more to protect the environment.

BioStar liners meet the ASTM D6400 standards for compostable plastics for use in commercial facilities.

The use of BioStar can liners helps reduce landfill waste, and reduces pollution and conserves water and other resources used in the management of waste sites.

Take action and help reduce the more than 200 million tons of landfill waste that is produced every year by incorporating BioStar compostable products into your program.

- **100% compostable.**
- **Meets ASTM D6400 Standard Specification for compostable plastics.**
- **Available in seven of the most commonly requested sizes.**
- **Green tint printed with the BPI compostable logo.**
- **Available on coreless rolls.**
- **For best results, use within one year of manufacturing. Store in cool, dry place.**

BPI®

COMPOSTABLE IN INDUSTRIAL FACILITIES

Check locally, as these do not exist in many communities. **Not suitable for backyard composting.** CERT # 2121264

Tested and certified by the Biodegradable Products Institute in conjunction with the U.S. Composting Council. Only tested and approved products are authorized to use the BPI Compostable label.

Stock Number	Gallon Capacity	Size	Gauge (Mil)	Strength	Color	Case Pack	Poly Weight	Cases per Pallet	Cases per Layer	Max Load
