CAN LINERS

Linear Low on Coreless Rolls

Linear Low liners are recommended for sharper objects under rough transport conditions. They have excellent resistance to punctures and tearing. These liners feature a leak-proof star seal.

Companions Number	Inteplast/Pitt Cross Reference	Gallon Capacity	Size	Color	Gauge (Mil)	Case Pack	Poly Weight	Max Load	Type

Recycled Content Linear Low on Coreless Rolls

Recycled Content liners are formulated from our own recycled virgin resin and high quality post-consumer resin. They are manufactured with a minimum of 70% recycled content.

Companions Number	Inteplast/Pitt Cross Reference	Gallon Capacity	Size	Color	Gauge (Mil)	Case Pack	Poly Weight	Max Load	Type

High Density on Coreless Rolls

High Density liners are great for paper and non-sharp objects under moderate transport conditions. They have excellent resistance to puncture and moderate resistance to tearing. Great for cost savings.

Companions Number	Inteplast/Pitt Cross Reference	Gallon Capacity	Size	Color	Gauge (Micron)	Case Pack	Poly Weight	Max Load	Type
12073 89014	MR24330MC	12-16	24 x 33	Natural	8	1000 (20/50)	16.9	20 lb	Merit

3 Steps to Choosing the Right Can Liner

Determine the proper can liner type.

There are two types of resins commonly used to manufacture can liners: Linear Low and High Density. To decide which one you need, answer this question: "Are sharp objects being thrown away?"

If yes, you need **Linear Low** (gauge/mils).

If no, you need **High Density** (gauge/microns).

What size container does the liner need to fit?

Ideally, you should have about three to four inches of overhang on the trash receptacles. The following are some guidelines to use when choosing the right size can liner.

A. Use the compatibility chart on this brochure.

B. The gallon capacity or the size is usually printed on the container.

How much does the liner need to hold?

Here you'll need to do some calculation. You need to determine the average weight of a full can liner in your environment.

Once you have decided on the number, check the product grid on this brochure under the can liner type and size that you have selected. Go across the grid to the column marked "Max Load". Find the number closest to the average weight figure you calculated and that's the can liner you need.

Convenient

- Improved box construction with easy dispensing feature.
- Available in standard sizes (12"/18"/24") to meet every need.
- Provides strong lasting cling to maintain freshness.
- Each roll comes with a starter strip to eliminate waste.

Sanitary

- The boxes have aqueous coating to prevent liquids from penetrating.
- The boxes are individually wrapped for extra sanitary protection.

Safety

- The cutter blade has unique diamond shape edge to minimize cuts.
- The safety sliders fits easily & securely onto the front flap of the box.
- No need to worry about attachments with adhesives coming unglued.
- The safety grippers on bottom are already pre-attached.
- No need to worry about tabs with stickers coming apart.

Kosher

-  Companions™ Foodservice Film Wrap is Kosher Certified and FDA approved for food contact.
