

# ECO Strong™

## PERFORMANCE

With performance on a level equivalent to traditional gauges and mil thicknesses, EcoStrong Performance liners are available on convenient coreless rolls, which simplifies inventory control and provides easy portability. Our bags offer the user a versatile liner that is formulated from recycled resin, which does not compromise strength, and is manufactured with up to 70% recycled content.

- Puncture and tear resistant
- Maximum film strength
- Top quality resins
- Top quality post-consumer and post-industrial recycled resin
- Assorted sizes for various uses
- Furnished on coreless rolls
